LEARN THE TERMINOLOGY

1. **MOBILITY**—The ability to allow your body to move.
2. **VITAL SIGNS**—Respiration, heart rate, and body temperature.

FROM THE MANAGER'S DESK

We are committed to providing you with quality healthcare each time you visit the clinic. We also desire that each visit you have with us is a pleasant and therapeutic one. Please remember to drink plenty of fluids this summer. With increased activities it is very easy to lose track of time and forget to replenish your body, which could result in dehydration and fatigue. **Terrence Kendrick, General Manager**

IN THE KNOW - April 30th through May 3rd, Visions Physical Therapy attended the 27th Annual Meeting of the Mississippi Black Professionals' Association. The meeting was held in Biloxi, MS, where we were invited to network as well as educate the medical community regarding our professional services. Visions Physical Therapy was elated to be the only therapy provider in attendance. During the course of the meeting we had the opportunity to attend several informative and educational seminars facilitated by presenting doctors. The structured approach gave us the opportunity to acquire useful information that can be conveyed to our patients to improve their overall health and well being.

- On April 3, 2009, members of the Visions Physical Therapy staff spoke to the 2009 graduating class of Physical Therapist Assistant at Hinds Community College in Jackson, MS. Students were informed about the discipline as it relates to real world situations. With their graduation date set for July 2009 the students were full of questions and very willing to absorb as much information as they could to help them launch their new career as physical therapist assistants.
